

# Secret Safes™

## What our customers say:

"I drove across the country hitting speed bumps, pot holes, washboard dirt roads and terrible city construction projects. My Secret Safe stayed exactly where I put it the whole trip."

*Tara from New Mexico*

"When I rolled my truck off a mountain and totaled it, I thought the box would be gone for sure. The truck rolled six times, but much to my amazement my Safe was still attached. I had to call a tow truck and my car insurance company, but I didn't have to get a new Secret Safe."

*John from North Carolina*

"My Secret Safe has been through blizzards, torrential downpours, and creeks, delivering dry contents at the end of each journey."

*Kristina from Colorado*

"Traveling in America made me nervous, but my Secret Safe protected my passport, cash and keys while I was enjoying the nightlife of New York City."

*Ben from Australia*

"I put the Safe in my duct work, and it holds my emergency cash, grandma's jewelry, and my rare coin collection. If I were robbed, insurance could replace my electronics, but nothing could replace family heirlooms."

*Frank from California*

# Home Safes

All with Pick and Pluck Foam!

Lock Loops on 10 models

# Secret Safes™

## Welcome to Secret Safes

### A new world of travel security

Our patented technology allows you to place your valuables securely under your vehicle or hidden spots in the home.

## Bad Ass Magnets!

Our unique design places the magnets inside a metal housing, concentrating all their force. This makes the magnets 20 to 30 times stronger. With up to 190 pounds of holding strength, this is security you can depend on! Our magnets are bolted on with steel lock-nuts and are guaranteed not to vibrate loose.

## The O-Ring

The rubber o-ring creates an airtight, waterproof seal.

No vapor or moisture can get in or out.

## Secret Safes™ Magnetic Personal Property Protection

Available in Many Sizes  
Airtight & Waterproof  
Bad Ass Magnets
